

PATIENT INFORMATION

PATIENT NAME:

TODAYS DATE:

DATE OF BIRTH:

New patients that are self-pay will be required to pay a \$100.00 deposit at the time of check-in.

Established patients that are self-pay will be required to pay an \$80.00 deposit at time of check-in.

This deposit is required prior to services being rendered.

The initial deposit does not reflect the cost of the office visit.

Office visits may range from \$100 to \$250 for New Patients and \$80 to \$180 for Established Patients depending on the office visit level. If your office visit is determined to be lower than that of the deposit amount collected at the visit and no additional charges are incurred (such as labs and in-office procedures). We will issue a refund for the difference back to the patient or guarantor listed on account.

All copay's and coinsurance charges are due at the time of service.

Additional copays and/or charges may be due in the event that the patient sees multiple members of the extended care team or additional providers from different specialties on the same date of service (For example: PCP visit and behavioral health on the same day OR medical and dental visits on the same day). If you schedule a wellness visit that may be covered by your insurance for no copay or fee, and a medical issue is addressed during this visit, a copay and/or charges may be due as it will be a separately billable service.
